GREETINGS---1931

Our 1931 Catalog brings greetings to you, and we take this opportunity to express our deep appreciation for your liberal patronage during the past. We trust that you, as well as our newer customers, will enjoy the greatest possible success with your Dahlias this season. We have one of the largest and best collections of Dahlias in the West. Our roots are all field grown, without being forced or over-fertilized — grown as you grow them. Our stock has been selected from the finest California novelties, which in our estimation are unexcelled.

Thanking you in advance for any orders you may favor us with, which we assure you, will be given our personal attention.

Sincerely yours,

STAR DAHLIA GARDENS

R. M'Whirter, Proprietor

Introducing

CAPRICE. (Mawson)

Tubers \$10.00

Wonderful new decorative of golden yellow shading to salmon pink, The immense flowers are held well above the foliage on long strong stems, Won two gold medals at Palace Hotel dahlia show 1930, for best flower in the show, and best established seedling, Also won two firsts at Civic Auditorium 'show, San Francisco, for best new introduction 1930. A strong healthy grower, good for both garden and exhibition, Strong field grown roots.

CATHERINE M'KENZIE (M'Whirter)

Tubers \$5.00

The color of this new decorative is a lovely shade of old rose suffused with gold, Large flowers with long stiff stems, A wonderful free bloomer and a vigorous grower, Good for both exhibition and garden. Very popular with the florists, Medium tall.

COMMANDER. (M'Whirter)

Tubers \$5.00

Golden apricot suffused with bronze, this new decorative is a tall grower with large flowers on good stems, Always attracts attention in the garden due to its prolific growth, an extremely healthy and vigorous variety.

FRANCISCAN. (M'Whirter)

Tubers \$5.00

The color of this new hybrid cactus is a wonderful shade of soft salmon pink, a new and distinctive color. The flowers are large with long straight stems, an early and free bloomer, Good for both garden and exhibition, Medium tall.

MARJORIE POWELL (Mawson)

Tubers \$5.00

A new decorative of old rose with gold tipped petals, The flowers are very large and full and the stems are long and straight, Bushes grow moderately tall and have an excellent habit.

ORANGE QUEEN (M'Whirter)

Tubers \$5.00

Very large golden orange colored flowers on medium sized bushes. We advise pinching out the top of this variety for best results. Stems are good and the plant is always a mass of blooms.

PALOMAR, (M'Whirter)**Tubers \$5.00**

This new decorative immediately attracts attention in the garden on account of its color, a rich glowing scarlet, Bushes are of medium height with large flowers on good strong stems, Free blooming and excellent for cutting and show purposes, Good habit.

WAVERLIE (M'Whirter)**Tubers \$10.00**

This new decorative won the San Mateo Chamber of Commerce trophy cup for ten blooms of best new introduction at dahlia show held by the Dahlia Society of San Francisco, Palace Hotel, 1930. The color is a silvery lavender with artistic wavy petals. Flowers are large, the habit and stems of the plant are excellent. Bushes are moderately tall and free flowering.

DONNA CALIFORNIA (Ballay)**Tubers \$10.00**

Deep rose pink suffused with lavender. The color is not new, but it is doubtless the largest dahlia of that coloring, 12-inch blooms having been produced without effort through a long period. The flower is not particularly heavy considering its great size, as its petal formation is loosely arranged rather than solid. The stems are very strong and very long. Winner of the prize for the Best Established Three-Year-Old at the Palace Hotel in 1929 and for 18 blooms of one variety in 1930. Also on the American Home Roll of Honor for both 1929 and 1930.

RAPIDAN (Ballay)**Tubers \$15.00**

Golden bronze. A huge symmetrical flower borne upright on an extra long thick stem. A dozen perfect blooms can be cut from the plant at one time and little disbudding is required. These features combined with the lively coloring, which is exactly what the florists want, has already made Rapidan invaluable as a commercial variety. Very reliable and highly ornamental.

ROYAL FLUSH (Ballay)**Tubers \$15.00**

Brightest scarlet. A sensational variety both as to color and size. One bloom we measured was 11½ inches and there were larger ones. Furthermore, the brilliant coloring appears to accentuate its size. The formation is full and deep and the stem strong and sufficiently long. Performance was good all season. A 1930 Roll of Honor dahlia.

How to Grow and Care for Dahlias

If possible, plant in open, sunny situation. Prepare the soil thoroughly by deep digging. Be moderate in the use of both manure and water. Never plant when the soil is wet. Lay the tuber flat on its side and cover it four inches deep, pressing the soil firmly on the tuber. Keep the soil loose and mellow by frequent hoeing. Cultivation is the secret of growing good Dahlias.

Three by three feet is about the proper distance to plant apart.

Keep all dead flowers trimmed off.

Dahlia blooms keep much better if cut in the evening—about sunset—and the less foliage taken off with the flowers the better for both plant and flower. If green is desired, use some other green of better keeping qualities.

After frost has killed the tops, dig the tubers carefully, remove the soil from the roots, and store away in a box or barrel, secure from frost. As a precaution it would be well to cover the tubers so stored with sand, leaves or moss.

All clumps should be divided into several pieces before being reset the following spring.

To have large blooms, it is absolutely necessary to disbud, leaving only one bud to each shoot.

DAHLIA SEED

Growing Dahlias from seed is one of the most interesting stages of Dahlia cultivation. Our seed is carefully selected from the choicest varieties. We send postpaid to any postoffice in the United States, Dahlia seeds in packages.
